CORPORATE SOCIAL AND ECO RESPONSIBILITY

At Bentley Europe, we recognise the importance of balancing the well-being of people with the vitality of our planet. We believe every business has a responsibility to make a positive difference, and we are committed to doing just that. Our goal is to achieve economic success while thoughtfully considering our impact on both people and the environment.

That's why we focus on using more recycled materials and reducing harmful packaging, working towards eliminating single-use plastics. In our warehouse, we've replaced plastic tape with paper tape, and we use eco-friendly beetroot paper and carton filling for shipping. We're also relocating more production to Europe to reduce our environmental impact.

Since 2021, we've proudly partnered with Trees for All to support global reforestation, planting 750 trees in 2022, 1,000 in 2023, and aiming for 1,250 in 2024. We also offer our clients the option to contribute by purchasing trees, with all donations going directly to this important cause. Additionally, we are honoured to support the Ronald McDonald Houses in the Netherlands, helping provide families with a "home away from home" when they need it most.

As a reflection of our ongoing commitment to sustainability and social responsibility, Bentley has been awarded the EcoVadis Bronze certification. This achievement highlights our continued efforts to support both environmental sustainability and fair treatment of all our partners.
